

PHASE 10B

PHASE 10B of Locust Creek consists of 13 attractive lots. Most of the lots are the ever-popular wooded walkout type of homesites.

The Locust Creek community is a carefully planned, all residential, totally upscale community located on Shelbyville Road in eastern Jefferson County. It offers you rare and unique natural surroundings for your new home.

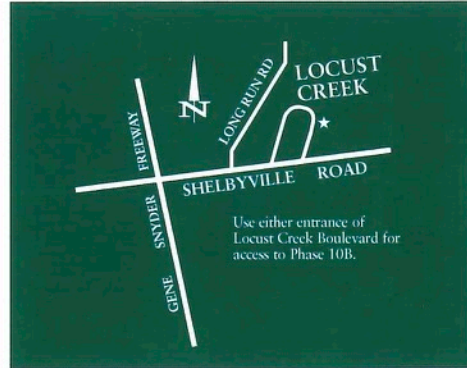

Designed with the beauty of the land always in mind, Locust Creek features single family homes, weaving atop rolling hillsides, creating many wonderful walkout lots.

Over 65 acres of Locust Creek are dedicated to open space and the enjoyment of the lovely natural setting. More than a half mile of beautiful Long Run Creek has been left undisturbed in its natural state.

The community includes an outstanding swim and tennis club, a 1.4 mile nature trail, a scenic picnic area adjacent to Long Run Creek plus open areas for field sports and playgrounds.

Locust Creek has so much to offer. Let us show you how easily and naturally it can become the right neighborhood for your new home.
